LANDS FOR RAILROADS.

Mr. Stevens, (Un., Pa.) moved to take from the Speaker's table and consider the bill granting lands to the People's Pacific Railroad Company to aid in building a railroad and telegraph lines by the Northern route to the Paolite.

An amendment was offered by Mr. Holman (Dem., Ind.) was agreed to, providing that the road to be built shall transport the troops, mails, etc., of the United States free of charge.

Mr. Wilson (Un., Iowa.), and others, opposed any action upon this bill at the present time, contending that the House had not sufficient information in regard to the matter to vote away 56,000,000 of acres of the public lands.

Mr. Sweats (Dem., Me.) explained and defended the bill contending that unless speedy and liberal action

Mr. St.can (Un., Wis.) moved an amendment, that if the 50 miles of the road to be built within three years, by the terms of the bill, be not completed within six months after the expiration of that time, the lands hereby granted shall revert to the Government. This

greed to. DONNELLY (Un., Minn.) argued at length in favo of the passage of the bill, on the ground that unless the country was opened up by radroads it would remain unlimproved, and the Government lands absolutely with

unimproved, and the Government lands absolutely willout value.

Mr. STEVENS said he was surprised at the quarters
from which it came. Unless we build this road these
lands will never be occupied until the forests are censumed by the last great are. He rophed to the arguments against giving away these lands on the ground
that they should be retained in order to afford revenue
to the Government. It was shallow statesmanship to
hold these lands and provent their development. It
was thrifty, substantial States we want from which to
derive revenue, and these could only be developed by
opening up the country to settlers.

On the passage of the bill the vote was: Yeas, 55;

Though no serious demonstration has been made as yet, an intense excitement still exists among the drivers of the Sixth and Seventh-avenue Railroads, because their demands for a reduction of their hours of labor have not been complied with. On the Sixth-avenue road about fifteen of the old drivers still work, and as many as eighty new drivers have been hired, each of them being protected while running the cars by a force of two policeien. It is stated by the officers of the road that there have been no dividends declared lately on this road, on have been no dividends declared lately on this road, on account of the enormous increase of expense, and that they have been ordered by the Directors to incur as little expense as possible. No more than 3t cars were run at any one time during yesterday. It is understood that several of the old drivers are willing to work if they were not deterred by the threats of the strikers. Capt. Porter and Sergeant London of the Nineteenth Precinct are in command of the police force of 63 men from different precincts, detailed to maintain order. Afflairs on the Seventh avenue road are in nearly the same condition as those of the Sixth. Much inconventence to the traveling public has resulted from the pending strike.

in currency, and are of equal convenience as a permanent or temporary investment. It is believed that no securities offer so great inducements to enders as the various descriptions of U.S. Bonds. In all ther forms of indebtedness, the falth or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the pay-

ment of both principal and interest in coin. Those Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder

will have the benefit of the interest. The Funded Debt of the United States on which interestis payable in gold, on the 3d day of March, 1864, was \$ 768,965,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30, 1964, has been so far at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from castoms on the same amount of importations to \$150,000,000 per
